EXTENSION OF TIME IS LIKELY

Reports of Viewers to Commissioners on Several Roads May be Held up For Thirty Days

ONE CONTRACT AWARDED

Board Also Late in Getting Into Election Claims—Set of Viewers Named

No action was likely to be taken today by the commissioners on the various road petitions calling for permanent improvement by paving with either concrete or brick. The report of the viewers on the First street improvement, the Frank Green et al., highway and the Frank Capp et al., road were all delayed and had not yet reached the commissioners at a late hour this afternoon.

It was expected that the viewers would be given an extension of time, possibly thirty days. The viewers on the county line highway between Glenwood and Falmouth were given until April 18 to file their report. As they were given an extension in time it was believed that the other viewers would also get the extension.

The commissioners were also delayed in reaching the claims for the recent primary election. The claim docket was the largest in several years and most of the morning session was taken up with claims. The board allowed all of those except the election and these were expected to be given consideration late this afternoon. The election claims are hard to allow as no precincts are alike in the amounts asked and the commissioners will be compelled to strike an average.

The Burk Construction company was awarded the contract for the bridge at Nipp's mill, the contract price being \$1,290. Other bids were as follows: Lawrence and Ennis, \$1,334; Wright and Heathcock, \$1,472; Haymond and Howard, \$1,398; Alonzo Stewart, \$1,697.75.

The viewers on the Albert W. Rigsbee et al., road in Posey township submitted a favorable report and the commissioners set May 1 as the time for receiving bids.

A petition was presented by Oscar Williams et al., to vacate and change a road affecting Walker and Posey townships. The commissioners appointed E. O. George, H. E. Daubenspeck and George H. Bell as viewers. No time was set for them to report. The petition and remonstrance for the Bert Cohee, et al road in Center township were read and a motion was filed to dismiss the petition but no action was taken.

Rep. Butler Makes Serious Charge Against Navy Department

(By United Press.)

Washington, April 3.—Representative Butler of Pennsylvania today made the charge before the house naval committee that the navy department under Secretary Daniels had furnished the Russian government and the Krupps in Germany with specifications and intimate details of fourteen-inch guns, armor strength and other offensive and defensive features of the United States navy. He asked for a letter written by Admiral Strauss to the Krupp company, in Germany.

Secretary Daniels denied the charges and said he would ask Strauss for the letter.

PIONEER FAST HORSEMAN DEAD

R. J. Wilson, Age 63, Son of James Wilson, Who Made Rush County Famous, Expires

LAST FEW YEARS A STARTER

Earlier in Life Mr. Wilson Developed Fine Speed Horses he Sold For Fancy Prices

Richmond, J. (Rich) Wilson, age sixty-three years, a pioneer horseman and second son of James Wilson, who made Rush county famous as a horse center, died Saturday evening at his home in North Main street of Bright's disease after a prolonged illness.

Mr. Wilson has been in poor health for more than a year. His illness dated back to an attack of nephritis. After the first attack he grew better and was able to be out on the street, but for several weeks he has been confined to his home. His life was despaired of several days before his death.

Coming from a family of horsemen, developing and racing fast horses was a sort of a second nature to "Rich" Wilson. He and his three brothers followed in the footsteps of their father, James Wilson, who made Rush county famous as a fast horse center.

As early as 1850 James Wilson was recognized as the leading Hoosier horseman. He and his sons were not only pioneers in the movement, but were constant and devoted promoters of the great horse industry. They have been authority and leaders on the subject for three scores of years. As a family, they stood among the most successful breeders, the best developers of young and extreme speed and in the very front rank of the practical and successful race horsemen of the country. Every one of the four sons of James Wilson at some time or other in their lives saw some experience on the grand circuit.

It has been many years since "Rich" Wilson sat on a sulky behind a horse. For the last few years he has officiated as starter at many of the leading county fairs in Indiana. Up until last fall, when his health would not permit it, Mr. Wilson's services were in constant demand in this capacity. He gave excellent satisfaction because he could draw on a rich experience gained through a life devoted to fast horses.

James Wilson and his sons developed many celebrated horses in years that have passed. The father of the four boys was said to be the best judge that "ever laid an eye on a horse." Blue Bull 75 stands as a testimonial to his judgment. The horse was simply known as "Sam," a common ne'er-do-well sort of a horse, when Mr. Wilson first saw him. He was absolutely unknown until discovered by the genius of Mr. Wilson, the fast horse wizard.

Blue Bull had neither lineage, notoriety or progeny, and yet, Mr. Wilson said of him, "he is the greatest horse of all" and was hooted at by the learned judges of horse flesh. But Jim Wilson's judgment proved right as it always had been.

With such ancestry, "Rich" Wilson was by nature a fast horseman. He was an important factor in the prime of life in the early development of speed and race meetings that added to the fame of Rush county as a horse center.

Mr. Wilson was born on the old Wilson homestead southwest of Rushville June 2, 1852 and would have been sixty-four years old the

INTEREST CENTERS IN I. & C. EXTENSION

Much Depends on \$6,000,000 Bond Issue to be Voted on in Cincinnati on April 25.

SEEMS SURE TO BE PASSED

Officials of the Indianapolis & Cincinnati Traction company do not attempt to disguise the feeling of optimism that prevails in interurban circles regarding the proposed extension of the line from here to Cincinnati by way of New Salem, Andersonville, Brookville and Harrison, O. Much depends on the popular election in Cincinnati April 25 when a six million dollar bond issue to provide an interurban entrance is voted upon.

According to word received here, there is practically no opposition to the bond issue and the belief is now that it will be carried overwhelmingly. The money will be expended in preparing an entrance for traction lines on the site of the old canal in Cincinnati. Interest in the election is revealed by the fact that ten meetings will be held at various places in Cincinnati this week at which speakers will advocate the passage of the bond issue.

It is said that within thirty days changes will be made by the I. & C. looking toward active renewal of work on the extension.

SITUATION AGAIN "VERY SERIOUS"

President Wilson Accumulates Evidence to Indict Germany For Submarine Outrages

MORE AFFIDAVITS RECEIVED

(By United Press.)

Washington, April 3.—President Wilson is rapidly accumulating evidence tending to indict Germany for recent attacks on unarmed vessels in the English Channel.

Word of additional affidavits has reached this country, it was said this afternoon.

The additional evidence materially increased the strength of opinion prevailing in administration circles that a German submarine was responsible for the attack on the Sussex and other vessels jeopardizing American lives. The situation again today was described as "very serious."

NOT ENCOURAGE.

WANT TAGGART TO MAKE RACE

Rush County State Delegates Wires Senator "Demanding" That he Become a Candidate

SIGNED BY THE DELEGATION

All Are Called Sunday And Are Found to be Unanimously in Favor of Taggart

Rush county Democrats are demanding that Thomas Taggart change his position and be a candidate for United States senator. In carrying out this demand a telegram signed by the eleven delegates to the state convntion was sent to Mr. Taggart last night demanding that he be a candidate. The message follows:

"To the Honorable Thomas Taggart, Washington, D. C.

"We the delegates of Rush county to the Democratic state convention unanimously demand your candidacy for senator. (signed Leonidas H. Mull, R. G. Budd, H. E. Henly, Omer Abernathy, Bert Spurgeon, Earl Spillman, Wilbur C. Brown, James H. Cross, Wilbur Stiers, E. R. Casady and Fred Lightfoot."

The action of the delegates in sending the message to Mr. Taggart is backed by the Democratic central committee. It is stated that a careful survey was taken by the committee and it was found that the sentiment in favor of Taggart was strong. All of the delegates were called and it was found that they unanimously favored Taggart for the short term nomination.

Local Democrats do not put much faith in the message as far as influencing Mr. Taggart is concerned, but intended it more as a matter of appreciation. It is believed here that if a sufficient demand is made for Taggart from all parts of the state he will reconsider his action of declining to be a candidate.

It has been known for a long time that the Democrats here were favorable to the Taggart machine in Indiana. Rush county has been treated kindly by the powers that be and the men sending the message are not unaware of this. The action of the delegates caused some surprise, but as a whole it was well taken. At the time the delegates were elected there was no thought of having to nominate a senator to as a result the delegates were not pledged.

The message, however, makes it plain who the delegation will support if given the chance.

The action of Rush county Democrats is in line with the feeling among Democratic politicians in Washington, according to dispatches today, which say that the Indiana delegation at the capital is determined not to take "No" as an answer from Taggart. Doubt is even expressed, the Washington dispatch says, whether any other candidates will go before the convention.

"So strong is the sentiment that Taggart should run," says the story from Washington, "that there was insistent rumors afloat that he has signified his willingness to make the race if the party nominates him. Senator Taggart is not quoted directly on this point, but the story is circulated industriously by the Indiana members of Congress. The wish may be father to the thought. Taggart's friends, however, are grasping at the straw and loudly predicting that he not only will be nominated by the convention, but that he will make the race.

"Two of the Indiana Democratic members of Congress who attended

COURT BREAKS JACKSON WILL

Upholds Contention of Heirs That Testator Was of Unsound Mind When it Was Made

ESTATE WILL BE SETTLED

One Case is Heard And Taken Under Advisement And Still Another is Dismissed

The will of the late Benjamin Jackson was broken this morning by Judge Sparks in circuit court and as a result an estate valued at probably \$15,000 is open to settlement in the usual manner.

The suit to set aside the will was brought by Ida May Dobbins, Wilson Dobbins, Cora Myers, Jacob Myers, Ida Jackson, Hazel Bitner, Otto Bitner, Flossy Jackson and Zulu Jackson against Emma Sweet, George Sweet, Hassel Sweet and Guy Sweet. Under the terms of the will eighty acres of land were willed to Guy and Hassel Sweet his grandchildren. This was the main point involved in the suit, although the entire estate is now open to settlement.

Several witnesses testified. Their testimony for the most part dealt with the sanity of the late Mr. Jackson and almost every witness stated that they believed him of unsound mind at the time the will was made. Shortly after Judge Sparks made his ruling, setting aside the will, Perry Newby of Knightstown qualified as administrator.

Immediately after Newby had qualified Ida May Dobbins et al., filed suit against the Sweets, thus starting in motion the first of the series of events that will lead to the final settlement of the estate. Mrs. Dobbins also filed a claim against Newby, as the administrator, in which she demanded \$10,741.

The claim of Ed Caldwell against the estate of his mother the late Lucinda Caldwell was heard by the court today and taken under advisement.

The case of Dr. Charles Houghland against Goldie Carr was dismissed and the costs paid. It was an account suit in which the demand was \$156. The case of Samuel L. Newhouse against William Emmsweller to foreclose a mechanics lien was dismissed and the costs paid. The demand was \$100.

In the case of Thomas Miller against the Pennsylvania railway, for damages, demanding \$400 the court overruled a demurrer to the complaint. Judge Sparks sustained a demurrer to the complaint in the suit of Marshall Green against the Big Four. He demanded damages in the sum of \$300 and by sustaining the demurrer the case practically ends as far as this court is concerned.

Judge Sparks announced today that the case of Maggie Irvin against Thomas Trackwell, sent here on a change of venue from

A Record Auto Year

There was more automobile advertising in the newspapers in 1915 than ever before.

Automobile factories ran to capacity to supply the demand.

There will be a still greater volume of newspaper advertising in 1916—manufacturers agree.

Commenting on this fact the President of a leading motor company says:

"The fact that newspaper advertising will sell automobiles leads me to the conclusion that it will sell any good product."

European Censor's Influence is Felt

(By United Press.)
El Paso, Tex., April, 3.—Score another one against the European war. It has cast its baneful influence over the Villa-American conflict. Very strongly here today.

For the first time in history the United States army censor has begun to "cens." He began where his European brethren left off. The American system of censoring is unique. So far, no censorship has been exerted over correspondents' stuff. The censorship starts while the news is on the hoof. It reminds one of Mike Gibbons "picking punches out of the air."

Nobody from the highest officer down to the camp male skinner knows anything about troops movements, or anything else—to hear them tell it.

On the way across the prado at Fort Bliss you notice a battalion, or something, of soldiers piling onto a train. An inspection of their luggage shows they are part of the umpty umph infantry.

"Where you going?" you ask a big sergeant.
"Damifno."
Then you pick on a boyish looking shave-tail.
"Where you going, lieutenant?"

PAPER BY DR. TERFLINGER

Superintendent of Insane Hospital is Considered an Authority on This Subject.

(By United Press.)

Logansport, Ind., April 3.—Science will take a few shots at alcohol, the saloon and the blind tiger when the National Conference of Charities and Correction meets at Indianapolis May 10 to 17. Dr. F. W. Terflinger, medical superintendent of the Northern Indiana Hospital for the Insane, in an interview today, gave a brief foretaste of what will come at that time when he reads his paper on alcoholism in relation to mental instability.

Dr. Terflinger said that mental instability and alcoholism go hand in hand. Admissions to insane hospitals and show that between 15 and 20 per cent of the cases used alcoholics to excess he said.

"There is also a large number of high class persons," he said, "afflicted with peresis, who, if we knew the truth, would charge the original infection, of which peresis is a remote result, to intoxication. Peresis is a cause of insanity. There is also another cause of insanity due directly to solerotic changes of the blood-vessels which changes, in turn, are due to the habitual but moderate use of alcoholic stimulants.

"It will be seen that if the percentage that is due directly and indirectly to overindulgence in alcoholics could be definitely ascertained, it would run much higher than the alleged 15 or 20 per cent.

"There is also another notable fact not often giving publicity, that the off-spring of alcoholic parents are not infrequently possessed of unstable, nervous systems, even to the extent of severe cases of cholera and epilepsy. While these conditions cannot be directly charged to alcoholism, yet there are cases in which it is known that cholera and epilepsy were due to conception during alcoholic indulgence on the part of the father or mother or both.

"There is no plausible excuse for the existence of either saloons or blind tigers. If the conference can give, as I think it will, additional publicity to facts such as these, it will do much good."

TODAY'S ODDEST STORY.

Hoquiam, Wash., April 3.—Gum camphor has plugged the biggest loophole in Washington's prohibition law. Inspired to investigate, by the increasing number of drunks, Police Judge Smith learned that grain alcohol was the most popular tipple. This can be purchased at a drugstore if the purchaser swears it is to be used for mechanical purposes. Smith then ordered all druggists to put a few grains of camphor in each flask of alcohol. It isn't poisonous, and some might stand the taste, but it simply won't stay down.

Winnipeg, April, 3.—Pleading that six million bushels of wheat needs cars to move it immediately to save it from rotting on the ground a farmer's delegation appeared today before the Canadian Grain commission. Much of this grain is already being damaged by wet spring weather the farmers told the commission.

STOMACH UPSET?

Get at the Real Cause—Take
Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

Permanent Roads Sure

There is no doubt but that the movement for permanent roads is started in earnest in Rush county. The only thing that good roads advocates have to guard against is that when they are building permanent roads, to be sure and get the proper kind of material; also make sure that they are built right.

When the county commissioners met today, they faced the prospect of receiving the reports of four sets of viewers, all appointed as the result of petitions for permanent roads. Sentiment among men who have investigated seems to lean towards concrete, but there are many who say that brick is the only material to use if really permanent roads are desired.

One argument of those in favor of cement as against brick declare that brick is slippery and that farmers cannot haul a heavy load over hills. Brick salesmen admit that objectionable feature but say that it is overcome by the use of cobblestone on the hills. They declare that the cobblestone will wear just as well as brick but that the surface is not so smooth.

In any event, even if concrete is chosen, it is certain that it will make a permanent road that will not be in such condition in the spring and fall that farmers can not haul a decent load any distance. It does the heart of the long time good roads advocates good to see the way farmers of Rush county are awakening to the need of good roads.

Here's the story of a county in Illinois which is almost analogous with that of Rush county. It is a county which has been converted. The story appears in the current issue of a magazine and is as follows:

Out of patience with a program which has devoted a million dollars in ten years to impermanent roads, Sangamon county, Illinois, is proposing to construct 125 miles of paved rural highway during the next three years, financing the project by a bond issue of \$1,500,000.

One of the chief sponsors for the plan is Edwin H. White, county superintendent of highways. He has worked out the details of his proposal with considerable care. He points out that other Illinois counties are entering into projects for permanent roads and that Sangamon county will find itself distanced unless it takes decisive steps. He and his associates in the movement point out that the proposed program would mean advantage to both farmers and business men through decreased cost of haulage and through stable market conditions owing to independence of temporary state of weather and roads. It is proposed to finance the program by bond issues of half a million dollars each year for three years. The bonds would run twenty years and one twentieth of the debt would be retired each year.

It is asserted that the cost, under this method, would amount to an average of only seven and three-fourth cents per year against each acre of farm land, while the average city lot would pay \$1.09 cents a year.

Superintendent White has prepared an impressive array of figures showing what the past improvement program has cost. The county road and bridge expenditures since 1905 have varied from \$5,000 to \$15,000 a year, making a total of \$128,000. The expenditure for district roads in 1905 was nearly \$70,000. This amount grew steadily year by year until 1914, when it was practically doubled, the total for the whole period being \$970,155.30. Besides this there has been an aggregate expenditure in the past two years of \$42,000 for "hard roads." Thus \$1,140,155.30 has been spent for roads and bridges in a decade. Backers of the new three year proposal insist that the comparative lack of past results is the best argument for making a radical change in the method of building and financing Sangamon county's highways.

PIONEER FAST
HORSEMAN DEAD

second day of next June. He married Miss Kate Pugh, the only daughter of Dr. W. A. Pugh, on March 25, 1879. To them was born two daughters, Ruella and Lucia, now Mrs. A. G. Haydon and Mrs. Carl F. Behr, of this city, both of whom survive. Mrs. Wilson died twelve weeks ago.

Mr. Wilson, when actively engaged as a trainer, had many fast horses to his credit. He became noted as a great developer of speed and often took unknown horses while young and sold them for fancy prices.

He drove Charley Evans, 2:19; Lulu K., 2:23; Blue Belle and many others of the old celebrities of the track in numerous winning races when those marks meant extreme speed. Later he bred, developed and sold such good ones as Eura, 2:18; Silverdale, 2:25; O. K., 2:26; Maywood, 2:21 and Della Megee, 2:28, which brought the record price for the time of \$2,500.

At the same time Mr. Wilson farmed extensively but his interests lay in race horses. This was revealed by the fact that he maintained a fine half-mile track on his own farm. Bringing further renown to the Wilson tradition, Mr. Wilson paid \$3,025.00 for Arrowood, a yearling by Nutwood, with a dam by George Wilkes, which was the largest sum ever given for a yearling up to the time of the purchase. That was at the time when Mr. Wilson was at the height of his career as a trainer. Arrowood proved that his judgment was not misplaced and developed into an exceptionally good horse.

Besides the two daughters already mentioned, Mr. Wilson is survived by two brothers, J. Hooker Wilson of this city, youngest son of James Wilson, and Dick Wilson, third son, who recently left here to engage in the cattle business in Mississippi. Mr. Wilson was a Red Man and a Royal Arcanum.

The funeral services were held at the late residence this afternoon at two o'clock, conducted by Dr. D. Ira Lambert of the First Presbyterian church.

HENRY S. LANE (con.) (26)
(1811-1881)

In 1860 Henry S. Lane was nominated for governor on the Republican ticket, with Oliver P. Morton as lieutenant governor. The democratic ticket was headed by Thomas A. Hendricks and David Turpie. Never were four stronger men of equal ability pitted against each other in the race for state offices. The issue was the extension of slavery and secession. The republicans were successful, and two days after the inauguration, Governor Lane was elected to the United States senate. He resigned immediately and went to Washington. In the senate he never attained any great distinction, although he served on the committee on military affairs, and later became chairman of the committee on pensions. At the expiration of his term he retired to private life in Crawfordville. For thirty years he was a trustee of Asbury University and an active member in the Methodist church. He died June 18, 1881, and Governor Porter ordered the state offices to be draped in mourning for thirty days.

John Wesley Davis (27) 1799-1859.

John W. Davis, probate judge, state legislator, congressman, minister to China, and governor of the Oregon Territory, was born on Pennsylvania in 1799. He was reared on a farm, was graduated from the medical department of the Baltimore University in 1821, and two years later arrived in Carlisle, Ind., with his young wife "and just three cents in his pocket." His medical practice gained him many friends and he soon entered politics. The first office he held was that of probate judge. He entered the legislature in 1831 and became speaker in 1832. In this capacity, he served for three different sessions. For eight years he was a member of congress, and in 1845, speaker of the house. In 1847 President Polk appointed him minister to China, which position he filled for three years. He was chairman of the democratic national convention that nominated Franklin Pierce in Baltimore in 1852. The following year President Pierce appointed him governor of the Oregon Territory. He died in 1859.

Tender Teeth—the
first sign of Pyorrhea

When you brush your teeth, does it feel as though you were brushing against the quick? Do the gums sometimes bleed? This is because pyorrhea has caused the gums to pull away from your teeth, leaving the unenamelled surfaces unprotected.

Your dentist will tell you, if you ask him, that you have gum recession; and that gum recession is caused by pyorrhea.

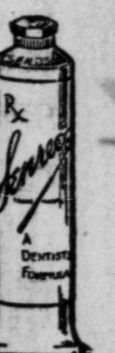

Unchecked, pyorrhea will warp and shrink and deform the gums. It will break down the bony structure into which the teeth are set—and you will eventually lose them. To save your teeth you will have to begin to fight this dread disease at once.

A specific for pyorrhea has been discovered recently by dental science, and is now offered for daily treatment in Senreco Tooth Paste. Senreco combats the germ of the disease. Its regular use insures your

teeth against the attack or further progress of pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santanel Remedies Company 503 Union Central Building, Cincinnati, Ohio.

Two Thousand Will Take Part in
Event in New York—Prize
to be Awarded.

ALL IN PERAMBULATORS

(By United Press.)

New York, April 3.—Two thousand and potential Presidents of the United States and First Ladies of the Land, ranging in age from 6 months to a couple of years and all riding in perambulators, will kick and gurgle and goo-goo and howl their way up and down the length and breadth of Harlem to advertise the Baby Carnival this afternoon.

Mrs. John Purroy Mitchel, wife of Mayor Mitchel and the wives of Borough President Marcus M. Marks of Manhattan and Douglas Mathewson of the Bronx will select the prize infant.

It is timidly suggested by the present reporter of this event that his friend, young Mr. Donald Pierce, age 24 months, blue-eyed and exceeding fat, not to say roly-poly and bouncing, will be the most distinguished wee one present. Donald not only was the first baby in the United States to wear a yaller "Votes For Women" banner on the buggy in which he does his best toe and heel kicking, but he is, also an inventor.

Donald's suffragist mother paraded him in so many parades and got so tired doing it that Donald, in a tongue only wee chaps like Don can get across to fond parents, suggested that she have Mr. Pierce, whom Donald seemed to recall having seen around the house at meal times, build a collapsible chair of steel and canvas and rivet it to the perambulator so Mother could sit down between speels of parading.

This little thing, Mr. Pierce did, with the result that Donald is one of the most experienced paraders in New York, not excepting the Ancient Order of Hibernians or the Ol' Clo' Man.

**GERMANY WORRIES
OVER CROP REPORTS**

Area of Land Under Cultivation is
Less and There is Shortage
of Draft Cattle.

OFFICIALS WON'T COMMENT

(By United Press.)

The Hague, April 3.—Germans are worrying already concerning the coming harvest. Newspapers from the Kaiser's side of the frontier lay much stress on the fact that relief from present semi-famine conditions is more important than even the greatest military gains.

The anxious tone of this comment strongly suggests that the press puts little faith in the official attribution of 1915's comparatively unsatisfactory showing to bad weather.

As a matter of fact, it is asserted, the area of land cultivation actually decreased and it is denied that in any case was cultivation as intensive as it should have been.

For one thing, it is said that so large a proportion of agricultural laborers were drafted into the army that work was left to inexperienced hands. The government is cautiously urged to consider that the importance of a good crop this year is sufficient to warrant even the temporary release of men from military duty if they are needs on the farms.

A shortage of draft cattle is complained of and last year, it is stated, the supply of seed and fertilizer was adversely affected by the strain on the railroads.

MAKE SALOON MEN PROMISE

(By United Press.)

Indianapolis, Ind., April 3.—Marion county's commissioners believe in publicity if only of the sunlight variety. They propose that any citizen of Indianapolis shall have the chance to sight along the saloon bars on Sunday or after closing hours if he so chooses. One of the requirements for a license renewal is a promise that all obstructions shall be removed from windows.

Indianapolis bars in the downtown district have been open regularly on Sundays and holidays, as well as election days. The city administration is democratic and the county republican which may account for the action of the county commissioners.

NEW ROUTE FOR GRAIN

Winnipeg, Man., April 1.—Changes costing \$7,500,000, made in Manitoba's elevators during the year, are being completed today. The amount was spent with a view of moving the majority of the grain to the western Canadian coast, thence through the Panama canal to Europe.

Laurel Abercrombie is suffering with the mumps.

WAS FALSE ALARM

Someone took a chance on being arrested in order to April fool the fire department. The false alarm was sent in Saturday night about nine-thirty o'clock from box No. 134, corner of Spencer and Third streets.

MORE SIGNS OF SPRING

Further evidence of spring is found in the fact that the Milroy and Moscow high schools played a baseball game at Milroy last Friday afternoon, Milroy winning seven to two.

**TAKE SALTS TO
FLUSH KIDNEYS**

Eat less meat if you feel Backache or
Bladder troubles you—Salts is
fine for Kidneys.

Excess forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

What are you interested in when you go to buy an automobile? Is it 70 miles an hour over dead horse hill on high gear; 40 miles an hour from a standing start in ten seconds. A car with so many features that to read the advertisement of it seems more like reading a story in Arabian Knights than a present day creation. Or would you be more interested in how much comfort is built in. And that other item—Cost of maintenance, tire mileage, gasoline consumption, garage bills, those things that vitally effect the pocketbook, in which everyone is interested and about which so little is said.

Will they give me any tangible evidence that I will get the kind of service that I feel I have a right to expect? Proof of the pudding is chewing the bag. Give us a chance to show you what has been done by cars we represent, then draw your own conclusions.

WINS FIGHT OVER SCHOOL BOARD

Miss Margaret Wilson Shows Washington That President is Not Only One Who Can Fight.

GETS COMMUNITY FORUMS

Bill Provides That People Can Use School Buildings For Civil Purposes.

(By United Press.)

Washington, April 3.—President Wilson's daughter, Miss Margaret Wilson, is showing Washington today that her father is not the only member of the White House family gifted with powers to bring congressmen and such into line.

Miss Wilson for some months has been engaged in a battle of politics with Washington's Board of Education, a conservative institution appointed by courts and not responsible to the people. Her battle is about to come to a successful conclusion in the House, where Representative Johnson of Kentucky has introduced a bill intended to bring the Board into line, broaden the schools' field of usefulness and add another scalp to the already large Wilson collection.

Miss Wilson has advanced ideas about a city. She believes school houses may be used to advantage by grown folks as community centers, civic forums and such. The people were in favor of it, all along.

Finally Representative Cresser of Ohio introduced a bill providing that school houses might be used as civic centers. Senator Hollis sponsored the bill in the Senate. Permission was granted for mothers and fathers to meet at the schools to discuss school affairs, politics, war and if they wanted to, fashions. Citizens' associations, of which there are about seventy-five, also made use of them.

In the Grover Cleveland School, one of the first to take advantage of the law, the people decided to meet on Sunday afternoons. The Board of Education didn't see it that way. If there were to be any meetings, the Board said, it—the Board—would say when they were to be held.

Miss Wilson went right up and saw the Congressmen about it. She didn't have to go any farther than Johnson of Kentucky, chairman of the District committee.

Early in March (1916) the Board of Education waked up to find that Congress was by way of passing a bill which said that ten schools, in given sections, should be named as community forums.

Further, the bill said specifically that the people in the sections, if they wanted to organize, could go right ahead. When they were organized, the bill went on, they were to name the time and place of meeting. The Board of Education, left to hold the sack, was told it was made responsible for the plan, and that its duty lay in seeing that nothing went wrong with the plan.

All the Board has to do is jump right up and say, "Yes, sir" when a properly organized section voices a desire to meet at the schoolhouse. The bill itself looks innocent enough. It says, in parenthesis, that it was introduced "by request."

TODAY'S HOOSIER ODDITY.

Decatur, Ind., April 3.—Mail was very late on rural route No. 7 out of here the morning that S. S. Magley, rural mail carrier, absent mindedly tied his horse to the running gear of a woman's buggy. The woman drove off with both rigs and Magley had to charter a bicycle to rescue his outfit.

MICHIGAN HOLDS PRIMARY

Senator Smith Will Likely Land Delegates to Convention.

(By United Press.)

Lansing, Mich., April 3.—Michigan tested her new presidential preference primary law today. Except in cities and counties where local issues were at stake, interest in the balloting was more or less perfunctory.

Senator William Alden Smith was conceded victory in the contest for the 30 Wolverine delegates to the Chicago convention, although the names of Henry Ford and William Gerald Simpson, both of Detroit, appeared on the Republican ballots as speakers after the nomination. Neither Ford nor Simpson made any campaign.

On the Democratic ticket, President Wilson was unopposed. The contest for Democratic national committeeman between E. O. Wood, of Flint, present committeeman, and William A. Comstock, of Alpena, attracted some attention. Re-election of the present Republican and progressive national committeemen was not contested.

SUIT CLUB MEN LAND IN COURT

Faces Charge of Lottery in Anderson—Drew One Name a Week and Each Paid 30 Cents.

APPEAL TO CIRCUIT COURT

(By United Press.)

Anderson, Ind., April 3.—Two conductors of an alleged lottery whereby men obtained suits of clothes for as low a figure as 30 and 60 cents were arraigned in circuit court today charged with operating a lottery. The defendants are Julius Cohen and Morris Bessman. They conducted suit clubs in Elwood and Anderson. The plan of the club was to draw a name each week. The unlucky members paid 30 cents each week until the sixty names were drawn.

Cohen and Bessman were convicted in the Elwood city court after a trial by jury and took an appeal.

'FORTUNATE ACT' WOMAN ASSERTS

Mrs. Alex Liddil Says it Was Lucky Day When She Took Tanlac.

Montpelier, Ind., April 3.—Mrs. Alex Liddil, a well-known Montpelier woman is one of the most enthusiastic of the thousands of Indiana men and women, who are praising Tanlac, the Master Medicine. She recently said:

"I suffered for months with nervous trouble. I was subject to spells of weakness which caused me great distress. Ambition and life were lacking and I just wanted to rest all the time. I was very nervous, the least thing causing me to become excited. I also had severe pains and cramps in my limbs.

"Trying Tanlac was one of the most fortunate acts of my life. In a few days I was greatly relieved and now I feel like an entirely different woman. I sleep better now, have a fine appetite, am not so nervous and feel fine."

The experience of Mrs. Liddil is typical of that of thousands of Indiana men and women who are testifying to the merits of Tanlac. Tanlac, the Master Medicine, is especially beneficial for stomach, kidney and liver trouble, rheumatism, sleeplessness, catarrhal complaints, coughs, colds, and is a general tonic and system purifier.

Tanlac is sold exclusively in Rushville at F. E. WOLCOTT'S drug store.

VILLA SLIPPED THE COLLAR OFF

Mexican Bandit Escaped From Ring

and Eluded Capture.

APACHE SCOUTS TRAIL HIM

"Invaders" Are Being Given False
Information Concerning Villa's
Whereabouts.

FORCES MOVE SOUTH

(By United Press.)
El Paso, Texas April 3.—Army men here today fear Villa has eluded the American cavalry, sweeping the Guereco district since Wednesday's fight. If a further search of the district's wild hiding places fail to locate the bandit the Parral district south will be invaded. Villa is believed to be headed there with the remnants of his forces, hoping to recruit new followers among his sympathizers.

GET HIM IN 10 DAYS.

Field Headquarters of the American Army near Dublin, Mexico, April 2. Via Wireless to Columbus, N. M., April 3.—Betting in army circles today were even that Villa would be captured or killed inside of ten days. The pursuit was believed to be nearing a climax. Large reinforcement, including infantry, have been sent south to assist in the final round up. Villa was last reported being carried farther into the mountains in the wagon which transported him after he was wounded.

San Antonio Texas, April 3.—Believing that Pancho Villa has escaped the ring of American and Carranzista troops reported to have surrounded him, General Funston today laid plans to track down the bandits with aid of Apache scouts.

"It is my belief that Villa has slipped his collar and crawled under the fence," was Funston's comment today.

At the same time it was announced that twenty Apaches who either fought with or against Geronimo in the famous campaign against the Indian bandit, will go to the front early next week.

These Indians are considered by military men to be the best trailers in the world.

The American troops across the border are being hampered in their pursuit by Villa by false information given by Mexicans it was learned today.

The American troops are believed to be near Chihuahua City today. No report, however, has been received from General Pershing and nothing definite has come from other sources.

Funston's information shows that the roads south of Casas Grandes are much improved. Five high powered touring cars are being used as couriers between El Valle and the extreme front.

EXTENSION OF TIME IS LIKELY

Reports of Viewers to Commissioners on Several Roads May be Held up For Thirty Days

ONE CONTRACT AWARDED

Board Also Late in Getting Into Election Claims—Set of Viewers Named

No action was likely to be taken today by the commissioners on the various road petitions calling for permanent improvement by paving with either concrete or brick. The report of the viewers on the First street improvement, the Frank Green et al., highway and the Frank Chapp et al., road were all delayed and had not yet reached the commissioners at a late hour this afternoon.

It was expected that the viewers would be given an extension of time, possibly thirty days. The viewers on the county line highway between Glenwood and Farmington were given until April 18 to file their report. As they were given an extension in time it was believed that the other viewers would also get the extension.

The commissioners were also delayed in reaching the claims for the recent primary election. The claim docket was the largest in several years and most of the morning session was taken up with claims. The board allowed all of those except the election and these were expected to be given consideration late this afternoon. The election claims are hard to allow as no products are alike in the amounts asked and the commissioners will be compelled to strike an average.

The Bark Construction company was awarded the contract for the bridge at Nipp's mill, the contract price being \$1,200. Other bids were as follows: Lawrence and Emis, \$1,334; Wright and Heathcock, \$1,472; Raymond and Howard, \$1,398; Alonzo Stewart, \$1,697.75.

The viewers on the Albert W. Rigbee et al., road in Posey township submitted a favorable report and the commissioners set May 1 as the time for receiving bids.

A petition was presented by Oscar Williams et al., to vacate and change a road affecting Walker and Posey townships. The commissioners appointed E. O. George, B. E. Daubenspeck and George H. Bell as viewers. No time was set for them to report. The petition and remonstrance for the Bert Cohen et al., road in Center township were read and a motion was filed to dismiss the petition but no action was taken.

Secretary Daniels denied the charges and said he would ask Strauss for the letter.

PIONEER FAST HORSEMAN DEAD

R. J. Wilson, Age 63, Son of James Wilson, Who Made Rush County Famous, Expires

LAST FEW YEARS A STARTER

Earlier in Life Mr. Wilson Developed Fine Speed Horses he Sold For Fancy Prices

Richmond J. (Rich) Wilson, age sixty-three years, a pioneer horseman and second son of James Wilson, who made Rush county famous as a horse center, died Saturday evening at his home in North Main street of Bright's disease after a prolonged illness.

Mr. Wilson has been in poor health for more than a year. His illness dated back to an attack of nephritis. After the first attack he grew better and was able to be out in the street, but for several weeks he has been confined to his home. His life was despaired of several days before his death.

Coming from a family of horsemen, developing and raising fast horses was a sort of a second nature to "Rich" Wilson. He and his three brothers followed in the footsteps of their father, James Wilson, who made Rush county famous as a fast horse center.

As early as 1850 James Wilson was recognized as the leading horseman in the county. He and his sons were not only pioneers in the movement, but were constant and devoted promoters of the great horse industry. They have been authority and leaders on the subject for three scores of years. As a family, they stood among the most successful breeders, the best developers of young and extreme speed and in the very front rank of the practical and successful race horsemen of the country. Every one of the four sons of James Wilson at some time or other in their lives saw some experience on the grand circuit.

It has been many years since "Rich" Wilson sat on a sulky behind a horse. For the last few years he has officiated as starter at many of the leading county fairs in Indiana. Up until last fall, when his health would not permit it, Mr. Wilson's services were in constant demand in this capacity. He gave excellent satisfaction because he could draw on a rich experience gained through a life devoted to fast horses.

James Wilson and his sons developed many celebrated horses in years that have passed. The father of the four boys was said to be the best judge that ever laid an eye on a horse. "Blue Bull 75" stands as a testimonial to his judgment. The horse was simply known as "Sam," a common no-fer-do-well sort of a horse, when Mr. Wilson first saw him. He was absolutely unknown until discovered by the genius of Mr. Wilson, the fast horse wizard.

"Blue Bull" had neither lineage, notoriety or progeny, and yet, Mr. Wilson said of him, "he is the greatest horse of all" and was hooted at by the learned judges of horse flesh. But Jim Wilson's judgment proved right as it always had been.

With such ancestry, "Rich" Wilson was by nature a fast horseman. He was an important factor in the prime of life in the early development of speed and race meetings that added to the fame of Rush county as a horse center.

Mr. Wilson was born on the old Rushville homestead southwest of Rushville June 2, 1852 and would have been sixty-four years old the

INTEREST CENTERS IN I. & C. EXTENSION

Much Depends on \$6,000,000 Bond Issue to be Voted on in Cincinnati on April 25.

SEEMS SURE TO BE PASSED

Officials of the Indianapolis & Cincinnati Traction company do not attempt to disguise the feeling of optimism that prevails in interurban circles regarding the proposed extension of the line from here to Cincinnati by way of New Salem, Andersonville, Brookville and Harrison, O. Much depends on the popular election in Cincinnati April 25 when a six million dollar bond issue to provide an interurban entrance is voted upon.

According to word received here, there is practically no opposition to the bond issue and the belief is now that it will be carried overwhelmingly. The money will be expended in preparing an entrance for traction lines on the site of the old canal in Cincinnati. Interest in the election is revealed by the fact that ten meetings will be held at various places in Cincinnati this week at which speakers will advocate the passage of the bond issue.

It is said that within thirty days changes will be made by the I. & C. looking toward active renewal of work on the extension.

Washington, April 3.—President Wilson is rapidly accumulating evidence tending to indict Germany for recent attacks on unarmed vessels in the English Channel.

Word of additional affidavits has reached this country, it was said this afternoon.

The additional evidence materially increased the strength of opinion prevailing in administration circles that a German submarine was responsible for the attack on the Sussex and other vessels jeopardizing American lives. The situation again today was described as "very serious."

WANT TAGGART TO MAKE RACE

Rush County State Delegates Wires Senator "Demanding" That he Become a Candidate

SIGNED BY THE DELEGATION

All Are Called Sunday And Are Found to be Unanimously in Favor of Taggart

Rush county Democrats are demanding that Thomas Taggart change his position and be a candidate for United States senator. In carrying out this demand a telegram signed by the eleven delegates to the state convention was sent to Mr. Taggart last night demanding that he be a candidate. The message follows:

"To the Honorable Thomas Taggart, Washington, D. C.

"We the delegates of Rush county to the Democratic state convention unanimously demand your candidacy for senator. (signed Leonidas H. Mall, R. G. Budd, H. E. Henly, Omer Abernathy, Bert Spurgeon, Earl Spillman, Wilbur C. Brown, James H. Cross, Wilbur Stiers, E. R. Casady and Fred Lightfoot."

The action of the delegates in sending the message to Mr. Taggart is backed by the Democratic central committee. It is stated that a careful survey was taken by the committee and it was found that the sentiment in favor of Taggart was strong. All of the delegates were called and it was found that they unanimously favored Taggart for the short term nomination.

Local Democrats do not put much faith in the message as far as influencing Mr. Taggart is concerned, but intended it more as a matter of appreciation. It is believed here that if a sufficient demand is made for Taggart from all parts of the state he will reconsider his action of declining to be a candidate.

It has been known for a long time that the Democrats here were favorable to the Taggart machine in Indiana. Rush county has been treated kindly by the powers that be and the men sending the message are not unaware of this. The action of the delegates caused some surprise, but as a whole it was well taken. At the time the delegates were elected there was no thought of having to nominate a senator to as a result the delegates were not pledged.

The message, however, makes it plain who the delegation will support if given the chance.

The action of Rush county Democrats is in line with the feeling among Democratic politicians in Washington, according to dispatches today, which say that the Indiana delegation at the capital is determined not to take "No" as an answer from Taggart. Doubt is even expressed, the Washington dispatch says, whether any other candidates will go before the convention.

"So strong is the sentiment that Taggart should run," says the story from Washington, "that there was insistent rumors afloat that he has signified his willingness to make the race if the party nominates him. Senator Taggart is not quoted directly on this point, but the story is circulated industriously by the Indiana members of Congress. The wish may be father to the thought. Taggart's friends, however, are grasping at the straw and fondly predicting that he not only will be nominated by the convention, but that he will make the race.

"Two of the Indiana Democratic members of Congress who attended

COURT BREAKS JACKSON WILL

Upholds Contention of Heirs That Testator Was of Unsound Mind When it Was Made

ESTATE WILL BE SETTLED

One Case is Heard And Taken Under Advisement And Still Another is Dismissed

The will of the late Benjamin Jackson was broken this morning by Judge Sparks in circuit court and as a result an estate valued at probably \$15,000 is open to settlement in the usual manner.

The suit to set aside the will was brought by Ida May Dobbins, Wilson Dobbins, Cora Myers, Jacob Myers, Ida Jackson, Hazel Biter, Otto Biter, Flossy Jackson and Zula Jackson against Emma Sweet, George Sweet, Hassel Sweet and Guy Sweet. Under the terms of the will eighty acres of land were willed to Guy and Hassel Sweet his grandchildren. This was the main point involved in this suit, although the entire estate is now open to settlement.

Several witnesses testified. Their testimony for the most part dealt with the sanity of the late Mr. Jackson and almost every witness stated that they believed him of unsound mind at the time the will was made. Shortly after Judge Sparks made his ruling, setting aside the will, Perry Newby of Knightstown qualified as administrator.

Immediately after Newby had qualified Ida May Dobbins et al., filed suit against the Sweets, thus starting in motion the first of the series of events that will lead to the final settlement of the estate. Mrs. Dobbins also filed a claim against Newby, as the administrator, in which she demanded \$10,741.

The claim of Ed Caldwell against the estate of his mother the late Lucinda Caldwell was heard by the court today and taken under advisement.

The case of Dr. Charles Houghland against Goldie Carr was dismissed and the costs paid. It was an account suit in which the demand was \$156. The case of Samuel L. Newhouse against William Emsweller to foreclose a mechanics lien was dismissed and the costs paid. The demand was \$100.

In the case of Thomas Miller against the Pennsylvania railway, for damages, demanding \$400 the court overruled a demurrer to the complaint. Judge Sparks sustained a demurrer to the complaint in the suit of Marshall Green against the Big Four. He demanded damages in the sum of \$300 and by sustaining the demurrer the case practically ends as far as this court is concerned.

Judge Sparks announced today that the case of Maggie Irvin against Thomas Truckwell, sent here on a change of venue from

PAPER BY DR. TERFLINGER

Superintendent of Insane Hospital is Considered an Authority on This Subject.

(By United Press.)

Logansport, Ind., April 3.—Science will take a few shots at alcohol, the saloon and the blind tiger when the National Conference of Charities and Correction meets at Indianapolis May 10 to 17. Dr. F. W. Terflinger, medical superintendent of the Northern Indiana Hospital for the Insane, in an interview today, gave a brief foretaste of what will come at that time when he reads his paper on alcoholism in relation to mental instability.

Dr. Terflinger said that mental instability and alcoholism go hand in hand. Admissions to insane hospitals and show that between 15 and 20 per cent of the cases used alcoholics to excess he said.

"There is also a large number of high class persons," he said, "afflicted with peresis, who, if we knew the truth, would charge the original infection, of which peresis is a remote result, to intoxication. Peresis is a cause of insanity. There is also another cause of insanity due directly to alcoholic changes of the blood-vessels which changes, in turn, are due to the habitual but moderate use of alcoholic stimulants."

"It will be seen that if the percentage that is due directly and indirectly to overindulgence in alcoholics could be definitely ascertained, it would run much higher than the alleged 15 or 20 per cent."

"There is also another notable fact not often giving publicity, that the off-spring of alcoholic parents are not infrequently possessed of unstable nervous systems, even to the extent of severe cases of cholera and epilepsy. While these conditions cannot be directly charged to alcoholism, yet there are cases in which it is known that cholera and epilepsy were due to conception during alcoholic indulgence on the part of the father or mother or both."

"There is no plausible excuse for the existence of either saloons or blind tigers. If the conference can give, as I think it will, additional publicity to facts such as these, it will do much good."

TODAY'S ODDEST STORY.

Hoquiam, Wash., April 3.—Gam camphor has plugged the biggest loophole in Washington's prohibition law. Inspired to investigate, by the increasing number of drunks, Police Judge Smith learned that grain alcohol was the most popular tipple. This can be purchased at a drug-store if the purchaser swears it is to be used for mechanical purposes. Smith then ordered all druggists to put a few grains of camphor in each flask of alcohol. It isn't poisonous, and some might stend the taste, but it simply won't stay down.

BABY PARADE TO BOOST CARNIVAL

Two Thousand Will Take Part in
Event in New York—Prize
to be Awarded.

ALL IN PERAMBULATORS

(By United Press.)

New York, April 3.—Two thousand and potential Presidents of the United States and First Ladies of the United States, ranging in age from 6 months to a couple of years and all riding in perambulators, will kick and gurgle and goo-goo and howl their way up and down the length and breadth of Harlem to advertise the Baby Carnival this afternoon.

Mrs. John Parroy Mitchell, wife of Mayor Mitchell and the wives of Borough President Marcus M. Marks of Manhattan and Douglas Mathewson of the Bronx will select the prize infant.

It is timidly suggested by the present reporter of this event that his friend, young Mr. Donald Pierce, age 24 months, blue-eyed and exceeding fat, not to say roly-poly and bouncing, will be the most distinguished wee one present. Donald not only was the first baby in the United States to wear a yaller "Votes For Women" banner on the buggy in which he does his best toe and heel kicking, but he is, also an inventor.

Donald's suffragist mother paraded him in so many parades and got so tired doing it that Donald, in a tongue only wee chaps like Don can get across to fond parents, suggested that she have Mr. Pierce, whom Donald seemed to recall having seen around the house at meal times, build a collapsible chair of steel and canvas and rivet it to the perambulator so Mother could sit down between speels of parading.

This little thing, Mr. Pierce did, with the result that Donald is one of the most experienced paraders in New York, not excepting the Ancient Order of Hibernians or the OP' Clo' Man.

The managers of the Brooks and Colestock sugar camp feel that they made a record during the season just closed. With 335 trees, they made 160 gallons of molasses and would have made more if their vats had been large enough. The camp was open a month and three days.

GERMANY WORRIES OVER CROP REPORTS

Area of Land Under Cultivation is
Less and There is Shortage
of Draft Cattle.

OFFICIALS WON'T COMMENT

(By United Press.)

The Hague, April 3.—Germans are worrying already concerning the coming harvest. Newspapers from the Kaiser's side of the frontier lay much stress on the fact that relief from present semi-famine conditions is more important than even the greatest military gains.

The anxious tone of this comment strongly suggests that the press puts little faith in the official attribution of 1915's comparatively unsatisfactory showing to bad weather.

As a matter of fact, it is asserted, the area of land cultivation actually decreased and it is denied that in any case was cultivation as intensive as it should have been.

For one thing, it is said that so large a proportion of agricultural laborers were drafted into the army that work was left to inexperienced hands. The government is cautiously urged to consider that the importance of a good crop this year is sufficient to warrant even the temporary release of men from military duty if they are needs on the farms.

A shortage of draft cattle is complained of and last year, it is stated, the supply of seed and fertilizer was adversely affected by the strain on the railroads.

BOARD BELIEVES IN PUBLICITY

Even if it is of Sunlight Variety and
Orders Blinds Down on
Sunday.

MAKE SALOON MEN PROMISE

(By United Press.)

Indianapolis, Ind., April 3.—Marion county's commissioners believe in publicity if only of the sunlight variety. They propose that any citizen of Indianapolis shall have the chance to sight along the saloon bars on Sunday or after closing hours if he so chooses. One of the requirements for a license renewal is a promise that all obstructions shall be removed from windows.

Indianapolis bars in the downtown district have been open regularly on Sundays and holidays, as well as election days. The city administration is democratic and the county republican which may account for the action of the county commissioners.

TAKE SALTS TO FLUSH KIDNEYS

Pay less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Excess of uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

MICHIGAN HOLDS PRIMARY

Senator Smith Will Likely Land Delegates to Convention.

(By United Press.)

Lansing, Mich., April, 3.—Michigan tested her new presidential preference primary law today. Except in cities and counties where local issues were at stake, interest in the balloting was more or less perfunctory.

Senator William Alden Smith was conceded victory in the contest for the 10th Congressional district. The 10th Congressional district delegates to the national convention, although the names of Henry Ford and William C. Clegg, both of Detroit, appeared on the Republican ballot as speakers after the nomination. Neither Ford nor Clegg made any campaign.

On the Democratic ticket, President Wilson was unopposed. The contest for Democratic national committee members between R. O. Wood, of Flint, present committeeman, and William A. Constock, of Alpena, attracted some attention. Re-election of the present Republican and progressive national committee was not contested.

'FORTUNATE ACT' WOMAN ASSERTS

Mrs. Alex Liddil Says it Was Lucky Day When She Took Tanlac.

Muncie, Ind., April, 3.—Mrs. Alex Liddil, a well-known Muncie woman, is one of the most enthusiastic of the thousands of Indiana men and women who are praising Tanlac, the Master Medicine. She recently said:

"I suffered for months with nervous trouble. I was subject to spells of weakness which caused me great distress. Ambition and life were lacking and I just wanted to rest all the time. I was very nervous, the least thing causing me to become excited. I also had severe pains and cramps in my head."

"Trying Tanlac was one of the most fortunate acts of my life. In a few days I was greatly relieved and now I feel like an entirely different woman. I sleep better now, have a fine appetite, am not so nervous and feel fine."

The experience of Mrs. Liddil is typical of that of thousands of Indiana men and women who are testifying to the merits of Tanlac. Tanlac, the Master Medicine, is especially beneficial for stomach, kidney, sleeplessness, catarrhal complaints, coughs, colds, and is a general tonic and system purifier.

Tanlac is sold exclusively in Indiana at F. E. WOLCOTT'S drug store.

UP-TO-NOW IN DESIGN

Designs as shown by some firms are more or less freakish or fadish to attract the attention of the prospective customers with scarcely a thought of their wearing appearance or correctness in proportion. But then they are merely on paper and represent but a small loss if they don't take.

We have faith in our ability as rational designers and as proof we show at our works a most complete selection of ready to erect monuments designed by our nationally recognized designer, Mr. A. H. Schrichte. J. B. SCHRICHTE SONS MONUMENTS 117-121 S. MAIN ST.

VILLA SLIPPED THE COLLAR OFF

Mexican Bandit Escaped From Ring of American Troops Once More and Eluded Capture.

APACHE SCOUTS TRAIL HIM

"Invaders" Are Being Given False Information Concerning Villa's Whereabouts.

FORCES MOVE SOUTH

(By United Press.)
El Paso, Texas, April 3.—Army men here today fear Villa has eluded the American cavalry, sweeping the Guerrero district since Wednesday's fight. If a further search of the district's wild hiding places fail to locate the bandit the Parral district south will be invaded. Villa is believed to be headed there with the remnants of his forces, hoping to recruit new followers among his sympathizers.

GET HIM IN 10 DAYS.

Field Headquarters of the American Army near Dublin, Mexico, April 2. Via Wireless to Columbus, N. M., April 3.—Betting in army circles today were even that Villa would be captured or killed inside of ten days. The pursuit was believed to be nearing a climax. Large reinforcements, including infantry, have been sent south to assist in the final round up. Villa was last reported being carried farther into the mountains in the wagon which transported him after he was wounded.

San Antonio, Texas, April 3.—Believing that Pancho Villa has escaped the ring of American and Carranzista troops, reported to have surrounded him, General Funston today laid plans to track down the bandits with aid of Apache scouts.

"It is my belief that Villa has slipped his collar and crawled under the fence," was Funston's comment today.

At the same time it was announced that twenty Apaches who either fought with or against Geronimo in the famous campaign against the Indian bandit, will go to the front early next week.

These Indians are considered by military men to be the best trailers in the world.

The American troops across the border are being hampered in their pursuit by Villa by false information given by Mexicans it was learned today.

The American troops are believed to be near Chihuahua City today. No report, however, has been received from General Pershing and nothing definite has come from other sources.

Funston's information shows that the roads south of Casas Grandes are much improved. Five high powered touring cars are being used as carriers between El Valle and the extreme front.
